

The Department of Natural Resources deals with the acquisition and use of earth observation data and spatial information for the sustainable use and management of forest, agricultural and nature areas. Our activities are carried out in a multidisciplinary context, both inside and outside ITC.

The Institute invites qualified persons to apply for the fulltime position of

## **ASSISTANT PROFESSOR m/f**

Strategic environmental assessment (SEA) and environmental impact assessment (EIA)

### **Main tasks**

You conduct and guide research and contribute to developing a research network that preferably acts across the departmental fields of interest (i.e. agriculture, the environment, forestry). You teach coursework at Master's level, supervise MSc theses, and contribute to developing educational modules and new educational products (e.g. distance learning packages). Together with a departmental professor, you supervise PhD students. Within and on behalf of the department you engage in the acquisition and implementation of consulting assignments, and undertake management and administration tasks.

### **Requirements**

You hold a PhD in a thematic field relevant to the department and have specialised in strategic environmental assessment (SEA) and/or environmental impact assessment (EIA) in combination with GIS and/or remote sensing. Knowledge of environmental indicators and their role in spatial decision support systems (SDSS) would be valued. You have knowledge of the thematic fields of the department and are interested in linking your expertise to ongoing departmental research and teaching. You have experience in teaching, including lecturing and course development, at academic level, and you have affinity with a multicultural, postgraduate education environment. You have been involved in international consulting and/or advisory assignments in less developed countries, and are willing to undertake travel in such countries. It is desirable that you can demonstrate experience in working across the disciplinary fields of the department.

### **We offer**

We offer an inspiring and challenging international environment. The successful candidate will be initially employed for a period of three years. Salary and conditions will be in accordance with the Collective Labour Agreement (CAO) of the Dutch Universities. Gross monthly salary depends on experience and qualifications and ranges from € 2279.- to € 4190.- exclusive of allowances (in accordance with the University System for Job Classification (UJC), job profile Assistant Professor level 2).

### **Information**

Additional information about this position can be obtained from Ir. L.M. (Louise) van Leeuwen or Dr. Ir. C.A.J.M. (Kees) de Bie (phone: +31 53 4874 240). Interested candidates are invited to send their letter of application and detailed CV to reach ITC before 15 March 2007 for the attention of M.F.G. (Marianne) Assink, Personnel & Organisation, P.O. Box 6, 7500 AA Enschede, The Netherlands (e-mail: [posecretariat@itc.nl](mailto:posecretariat@itc.nl)).
