

(EA) Environmental Assessment Planner - Burnaby

Gartner Lee is an environmental science, economics, planning and engineering consulting firm with a proven track record for providing clients with innovative, practical and cost-effective environmental solutions.

We are a vibrant, growing and innovative company occupying a unique niche in the delivery of our services; we carry out work for all stakeholders, whether public, private or aboriginal. Gartner Lee is a leader in strategic planning, impact assessment, regulatory approval and stakeholder consultation.

Our Strength is Our People...and we are committed to keeping our employees' disciplinary expertise at the leading edge and enhancing their career growth and well-being while fostering their dedication to serving our clients' needs, across our 16 Canadian offices.

Career Development...we invest in our employees by providing them with career development opportunities, including professional development training and opportunities to work on projects across Canada and internationally. Our projects have taken us to over 30 countries around the world.

Attractive Compensation and Benefits...**Gartner Lee** offers competitive salaries, a minimum of 3 weeks paid vacation in your first year and a comprehensive benefits program, 100% paid for by the company, including a self-directed GRRSP with company-matched contributions.

Due to our sustained growth in western and northern Canada we now recruiting for **(EA) Environmental Assessment Planners** to support our existing activities and to grow our capacity to serve clients in these areas. The successful candidate will join a multidisciplinary, collaborative nation-wide team focused on delivery of superior services to our clients.

Based in Burnaby, you will lead a dynamic environmental sciences team focused on the delivery of EIAs for our clients in the mining and petroleum sectors. The successful candidate must have an ability to manage and coordinate multi-disciplinary, geographically disperse teams and to establish project-specific environmental assessment processes. This is a challenging senior position that offers an excellent opportunity for career growth.

Qualifications:

- M.Sc. with background in the natural, earth or social sciences, environmental design, or comparable area of study.
- Three to Five years experience in an EIA capacity.
- Assets for this position include strategic thinking; project coordination; knowledge of the regulatory processes; excellent verbal and written communication skills; the ability to supervise, train and mentor junior staff.

Gartner Lee welcomes interest from all qualified candidates. For more information on all available career opportunities please visit: www.gartnerlee.com/careers/
