

IAIA
International Association
for Impact Assessment

“30 Under 30”

Request for nominations from all IAIA members and IAIA13 attendees

In celebration of our theme of “the next generation” at this year’s IAIA 2013 conference in Calgary, we are looking for the best, most creative young professionals in the field of impact assessment who have achieved great success in their careers or have been a part of a single event that makes them an outstanding professional. The International Association for Impact Assessment (IAIA) recognizes the vital importance young environmental professionals play in our field, and we are excited to highlight the best and brightest at this year’s conference.

IAIA members and conference attendees are invited to submit nominations of individuals whose achievements will be evaluated by a panel of judges in the following areas:

- Vision and Leadership
- Career Achievements
- Innovation and Creativity
- Growth and Development Strategy

IAIA members and conference attendees are encouraged to invite as many individuals as you like who excel in these areas within the environmental field. Nominees do not need to be IAIA members, nor are they required to attend IAIA13.

Nominees must be under 30 years of age as of the conference. Please submit a photo and the information requested below to Richard Roberts at Roberts@praxis.ca by 1 April 2013.

Recipients will be notified by mid-April. Photographs and bios of the top 30 winners will be displayed on the **“30 Under 30 Wall”** at the conference center. Any of the 30 who are in attendance at IAIA13 will be acknowledged onsite.

For more information, contact Richard Roberts at Roberts@praxis.ca.

To submit a nominee, please e-mail a photo and the following information:

Nominated by (name and email address):
